DESCRIPTION

From the moment you step aboard, luxurious space is a constant companion. A timelessly elegant exterior profile is fused with ingenious interior layout solutions to deliver one of the most technically advanced and spaciouly proportioned flybridge yachts on the water. Below, expansive hull windows create a sense of constant forward motion while generously flooding the interior with light. This oasis of calm can then be propelled to a top speed approaching 33 knots, and all with nimble composure. Magnificent refinement and performance, in equal measure.

”
