The all-new Y85 is a triumph of contemporary design. Her elegant sweeping profile houses an interior sanctuary that resets the benchmark for modern living. Her flybridge is an irresistible invitation to al fresco entertainment with a large dining area opposite a well-equipped wet bar further complemented by a large aft sunpad. With twin MAN V12 engines propelling her to a top speed of 33 knots, she flies past her contemporaries without looking back. An expansive single-level main deck provides ample entertaining space with a flexible galley arrangement. Three separate seating areas ensure the utmost privacy for guests with the crew able to move discretely around the yacht. Below deck, up to eight guests are accommodated across four beautifully appointed en suite cabins. Amidships, the full beam master suite is a champion of spacial design, whilst the en suite VIP cabin, forward, boasts a large double bed and walk-in-wardrobe. Furthermore, one double and one twin cabin (convertible into a double) complete her spacious accommodation. Unmissable, the all-new Y85 is unmistakably Princess.
